**RECOMMENDATION**

We rate ENABLE MIDSTREAM PARTNERS LP (ENBL) a HOLD. The primary factors that have impacted our rating are mixed - some indicating strength, some showing weaknesses, with little evidence to justify the expectation of either a positive or negative performance for this stock relative to most other stocks. The company's strengths can be seen in multiple areas, such as its attractive valuation levels, expanding profit margins and largely solid financial position with reasonable debt levels by most measures. However, as a counter to these strengths, we also find weaknesses including feeble growth in the company's earnings per share, disappointing return on equity and weak operating cash flow.

**HIGHLIGHTS**

42.90% is the gross profit margin for ENABLE MIDSTREAM PARTNERS LP which we consider to be strong. It has increased from the same quarter the previous year. Along with this, the net profit margin of 17.28% significantly outperformed against the subsector average.

The debt-to-equity ratio is somewhat low, currently at 0.60, and is less than that of the subsector average, implying that there has been a relatively successful effort in the management of debt levels. Even though the company has a strong debt-to-equity ratio, the quick ratio of 0.48 is very weak and demonstrates a lack of ability to pay short-term obligations.

The company's current return on equity has slightly decreased from the same quarter one year prior. This implies a minor weakness in the organization. Compared to other companies in the Pipeline Transportation subsector and the overall market on the basis of return on equity, ENABLE MIDSTREAM PARTNERS LP underperformed against that of the subsector average and is significantly less than that of the S&P 500.

Net operating cash flow has declined marginally to \$200.00 million or 6.97% when compared to the same quarter last year. In addition, when comparing the cash generation rate to the subsector average, the firm's growth is significantly lower.

##### REVENUE GROWTH AND EBITDA MARGIN\*

Companies with higher EBITDA margins and revenue growth rates are outperforming companies with lower EBITDA margins and revenue growth rates. Companies for this scatter plot have a market capitalization between \$1.8 Billion and \$4.6 Billion. Companies with NA or NM values do not appear.

\*EBITDA – Earnings Before Interest, Taxes, Depreciation and Amortization.

##### REVENUE GROWTH AND EARNINGS YIELD

Companies that exhibit both a high earnings yield and high revenue growth are generally more attractive than companies with low revenue growth and low earnings yield. Companies for this scatter plot have revenue growth rates between -30.2% and 1715.2%. Companies with NA or NM values do not appear.

#### SUBSECTOR ANALYSIS

ENABLE MIDSTREAM PARTNERS LP falls within the Transportation and Warehousing sector and the Pipeline Transportation of Natural Gas industry group of the North American Industry Classification System or NAICS.

TheStreet Quant Ratings is currently tracking 158 companies in the Transportation and Warehousing sector that total around \$1,048 billion in market capitalization as well as \$892 billion in annual sales.

The Pipeline Transportation subsector accounts for 26.3% of those revenues.

Industries in the Pipeline Transportation subsector use transmission pipelines to transport products, such as crude oil, natural gas, refined petroleum products, and slurry. Industries are identified based on the products transported. The Pipeline Transportation of Natural Gas industry includes the storage of natural gas because the storage is usually done by the pipeline establishment and because a pipeline is inherently a network in which all the nodes are interdependent.

#### THESTREET QUANT RATINGS RESEARCH METHODOLOGY

TheStreet Quant Ratings' stock model projects a stock's total return potential over a 12-month period including both price appreciation and dividends. Our Buy, Hold or Sell ratings designate how we expect these stocks to perform against a general benchmark of the equities market and interest rates. While our model is quantitative, it utilizes both subjective and objective elements. For instance, subjective elements include expected equities market returns, future interest rates, implied industry outlook and forecasted company earnings. Objective elements include volatility of past operating revenues, financial strength, and company cash flows.

Our model gauges the relationship between risk and reward in several ways, including: the pricing drawdown as compared to potential profit volatility, i.e. how much one is willing to risk in order to earn profits; the level of acceptable volatility for highly performing stocks; the current valuation as compared to projected earnings growth; and the financial strength of the underlying company as compared to its stock's valuation as compared to projected earnings growth; and the financial strength of the underlying company as compared to its stock's performance. These and many more derived observations are then combined, ranked, weighted, and scenario-tested to create a more complete analysis. The result is a systematic and disciplined method of selecting stocks.

**FINANCIAL ANALYSIS**

ENABLE MIDSTREAM PARTNERS LP's gross profit margin for the first quarter of its fiscal year 2020 has significantly increased when compared to the same period a year ago. Sales and net income have dropped, however the growth has outpaced the average competitor within the subsector. ENABLE MIDSTREAM PARTNERS LP has very weak liquidity. Currently, the Quick Ratio is 0.48 which clearly shows a lack of ability to cover short-term cash needs. The company's liquidity has increased from the same period last year.

During the same period, stockholders' equity ("net worth") has remained virtually unchanged only decreasing by 2.91% from the same quarter last year. The key liquidity measurements indicate that the company is in a position in which financial difficulties could develop in the near future.
